CAMPANIA

INTERNATIONAL, LLC

Supplement 2022/2023

2452 Quakertown Rd, Suite 100
Pennsburg, PA 18073
www.campaniainternational.com

Tel: (215) 541-4627
Fax: (215) 541-4628

Dear Friends and Customers:

After the many challenges of the past two years, we want to thank you once again for your continued support of Campania and most especially for your patience as we navigate the many obstacles brought on by the pandemic, the supply chain, inflation and general global uncertainty.

From our first days together leading Campania, Peter and I have never wavered in our commitment to design, quality, and customer service. While there have been many successes and improvements in each of these areas over the past year, the greatest challenge to success has been in our commitment to service.

We faced myriad roadblocks and setbacks in the area of order fulfillment and shipment. As you are all aware, the pandemic caused a worldwide slowdown in shipping and astronomical price increases exacerbated by increased demand for consumer goods, especially garden products. Covid outbreaks in Southeast Asia and China resulted in lockdowns and labor shortages. Most painfully for us, our factories in Vietnam were closed for over 2 months this past summer as the country battled a nationwide covid outbreak with strict lockdowns, further burdening an already strained supply chain. Containers were delayed in port, factories had difficulty retaining workers and restarting operations at a critical moment for production of Spring orders. Energy costs also skyrocketed, affecting not only the factories that depend on natural gas for their kilns, but also the cost of shipping. Needless to say, it has been a challenge for all of us in our industry, and we know that each of you has experienced the burden of these challenges as well.

While we endeavored to find the best solutions to deliver on our promise of service, it has not been an easy road and we know that this was often a source of frustration for our customers as, of course, it was for us. Please trust that we will continue to address and resolve these issues in the best way we can.

That said, looking forward, it is easy to lose sight of the big picture of what we all do and what we all love. For many of us, business increased over the past two years as customers focused on improvement of their homes and gardens and took a renewed interest in gardening and the outdoors. More young people began to garden both indoors and out, and the uptick in container and houseplant sales surged along with all categories of garden products. This trend will have a long-term, positive impact on the future of our industry and our businesses.

We are proud to be part of this community of gardeners. Gardens and outdoor spaces will continue to provide a much-needed refuge and safe haven from all of the unpleasant realities and strains of life in 2022. Being in nature, digging, planting, watering, and weeding takes us to another place. It is this shared passion which brings us together and sustains us. Although we play a small part in it, we are proud that you choose our products to display at your garden centers to offer to your customers. We are proud to be a part of the restorative power of nature and gardening, and we are grateful for your continued patience and support.

We hope you enjoy our new 2022-2023 Supplement and look forward to seeing you in the near future.

Thank you for your partnership and friendship.

Sincerely,

Glenn R. Appel
Chief Executive Officer

Peter C. Cilio

CAMPANIA

Cast Stone Collection

Cast Stone *Patinas*

Campania's cast stone products are available in a choice of thirteen (13) exclusive natural pigment stains in addition to natural cast stone. All of our patinas are pigment based and hand applied in a multi-step process. Our artisanal finishing techniques make every piece a uniquely beautiful original. Our patinas are designed to replicate the look of naturally aged materials and will not prevent the natural aging process. Any cast stone item with a patina finish will weather naturally in an outdoor environment.

Like stains for wood, each piece will accept our patinas in varying degrees of intensity creating natural color variations that will add character and distinction to every piece. Even when the same stain is applied with the same process, no two pieces will look exactly alike. This is due to the variance in the composition of the natural materials in the cast stone, as well as the varying ages of the pieces. It is this variability and broad range of tones, rather than uniformity, which give our stains their beauty and appeal.

Because each patina is hand applied and our products are photographed in natural settings, actual colors may vary from those depicted in the catalog. Please consult our catalog photos and our website for examples of variations in our patinas.

Modulars

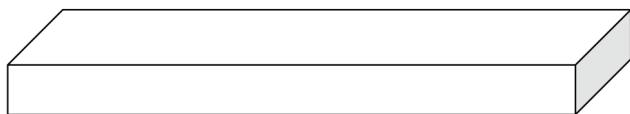

Create your own gardenscape with Campania's modular bench/planter/fountain system. Perfect for residential or commercial use, these sleek contemporary components can be arranged in a wide variety of configurations to suit your garden space. Each component is ordered individually. Please note that every planter box can also be used as a fountain, in which case the fountain assembly unit should be ordered. The components also work well as single benches, planters or fountains.
